

KNOW YOUR DRUGS

IT COULD BE A MATTER OF LIFE AND DEATH

Adverse drug reactions are a leading cause of death

WHEN: Thursday April 28, 2022 from 7 to 8:30pm

WHERE: Sprucewood Library, 11555 95 Street, Edmonton

WITH: Nancy Milakovic and David Carmichael

Nancy Milakovic will be facilitating the discussion. She has been the Portfolio Manager for the Business and Productivity area in Continuing Education at NAIT for 11 years. Prior to NAIT, she worked in the Hospitality sector where she honed her facilitation skills, and developed a great appreciation for customer experience.

David Carmichael started speaking out about prescription drug safety in 2006, two years after taking the life of his 11-year-old son Ian when he became psychotic shortly after starting the antidepressant Paxil. He was charged with first-degree murder, judged not criminally responsible and spent years institutionalized under the law. David manages the Know

Your Drugs global awareness campaign as Executive Director of the charitable organization Canadians for Vanessa's Law, and is currently on a cross-Canada tour. Before the discussion, he will be delivering the presentation:

**PREVENTING ANOTHER
OPIOID CRISIS**

HOW CONSUMERS OF PRESCRIPTION DRUGS
CAN BE PROTECTED FROM SIDE EFFECTS THAT
CAUSE DEATH, DISABILITY AND DYSFUNCTION

Event registration is not required. There is plenty of space.
