

KNOW YOUR DRUGS

IT COULD BE A MATTER OF LIFE AND DEATH

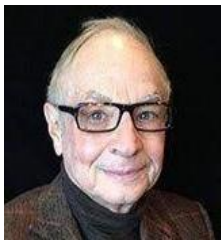

Adverse drug reactions are a leading cause of death

WHEN: Tuesday September 14, 2021 from 7 to 8:30pm

WHERE: Halifax Central Library, 5440 Spring Garden Road

WITH: David Zitner and David Carmichael

David Zitner, a retired Professor at Dalhousie University and retired family physician, will be facilitating the discussion. He was the founding director of the graduate program in Health Informatics in the Faculty of Medicine at Dalhousie University, and has many publications in peer reviewed journals and the popular press.

David Carmichael started speaking out about prescription drug safety in 2006, two years after taking the life of his 11-year-old son Ian when he became psychotic shortly after starting the antidepressant Paxil. He was charged with first-degree murder, judged not criminally responsible and spent years institutionalized under the law. David manages the Know Your Drugs global awareness campaign as Executive Director of the charitable organization Canadians for Vanessa's Law. This public discussion will launch his cross-Canada tour, which will end on June 23, 2022 in Victoria, British Columbia. Before the discussion, he will be delivering the presentation:

PREVENTING ANOTHER OPIOID CRISIS

HOW CONSUMERS OF PRESCRIPTION DRUGS
CAN BE PROTECTED FROM SIDE EFFECTS THAT
CAUSE DEATH, DISABILITY AND DYSFUNCTION

Event registration is not required. There is plenty of space.
