

KNOW YOUR DRUGS

IT COULD BE A MATTER OF LIFE AND DEATH

Adverse drug reactions are a leading cause of death

WHEN: Thursday May 19, 2022 from 4 to 5pm

WHERE: Canterbury College Administration Building,
Second floor Great Room, 2500 University
Avenue West, Windsor

WITH: David Carmichael - part of his cross-Canada tour

David Carmichael experienced psychosis in July 2004, shortly after starting the antidepressant Paxil, and took the life of his 11-year-old son, Ian. He was then charged with first-degree murder, judged not criminally responsible, and institutionalized. David manages the Know Your Drugs global awareness campaign as Executive Director of the charitable organization Canadians for Vanessa's Law. His family tragedy was the basis for the CTV W5 episode "The Problem with Pills," which aired on October 9, 2021. Before the discussion, David will be delivering the presentation:

PREVENTING ANOTHER OPIOID CRISIS

**HOW CONSUMERS OF PRESCRIPTION DRUGS
CAN BE PROTECTED FROM SIDE EFFECTS THAT
CAUSE DEATH, DISABILITY AND DYSFUNCTION**

Event registration is not required. Public discussions are listed at [KnowYourDrugs.org](https://www.knowyourdrugs.org)

For more information, contact David Carmichael at david@knowyourdrugs.org or (905) 580-4701
